Table of Contents

This is Volume Two of a two-volume report. Volume One deals with the broad social, economic and environmental impacts that a gas pipeline and an energy corridor would have in the Mackenzie Valley and the Western Arctic. In it certain basic recommendations are made. This second Volume sets out the terms and conditions that should be imposed if, in the future, a pipeline is built and an energy corridor is established in the Mackenzie Valley

LETTER TO THE MINISTER IX	46 The Demand for Northern Labour	72 Availability of Loan Capital
PART ONE:	47 Labour Supply Considerations	72 Bonding
People: Social and Economic Concerns 1	48 Manpower Delivery	73 Pipeline and Economic Problems
CHAPTER 1	49 The Problem of In-migration	CHAPTER 6
Introduction: The Need for Balanced Development 3	49 Recommendations	Transportation 75
4 Two Philosophies	49 Residency Requirements	75 Project Logistics
4 Various Project Situations	50 Single Agency Referral System	76 Existing and Proposed Public Facilities
5 The Past and the Future	51 Functions and Establishment of the Manpower Delivery System	76 Facilities
CHAPTER 2	51 Hiring Halls and In-migration	77 Community Airports
Renewable Resources 7	52 Training	78 Staging Sites in the Northwest Territories
8 Inadequacies of Existing Data Bases	52 Conditions of Employment	78 Roads
8 Participation in the Traditional Economy	53 Labour Pools	79 Services
9 The Volume of Production	53 Accommodation, Food and Recreation	81 Communications
13 The Value of Production	53 Security	81 Telephone and Business Communications
15 Output and Trends in the Traditional Economy	54 Work Schedules	
16 Map and Tables	54 Rest and Recreation Leave	
33 Trends	54 Safety on the Job	
33 Output	54 Conduct of Employees on the Job	
34 Comparison with Other Economic Sectors	55 Money Management	
34 Recommendations for Data Collection	55 Women in the Work Force	
35 Potential for Renewable Resource Development	CHAPTER 4	
36 Increasing Harvest Levels	Action Communities 57	
39 Secondary Activities	57 Consequences of Rapid Growth	
39 Implications for Employment and Income	58 Pathology of Rapid Growth	
40 Problems in Developing the Renewable Resource Sector	60 Physical and Financial Aspects of Growth	
40 Problems at the Enterprise Level	62 Information, Planning and Impact Funding	
40 Problems Related to the Northern Economy as a Whole	63 Specific Problem Areas	
41 The Problem of Capital	64 Camps and Communities	
41 The Problem of Access	65 Community Energy Supply	
42 Options for the Future	CHAPTER 5	
CHAPTER 3	Northern Business 67	
Employment and Manpower Delivery 45	68 Definition of a Northern Resident Firm	
	68 Bid Differential	
	68 Regional Purchase of Goods and Services	
	69 Tendering Procedures	
	70 Bid Depository	
	70 Labour Relations	
	70 Information and Forecasting	
	71 Skills of Management and Enterprise	
		72 The Physical Environment 85
		85 Environmental Priorities
		86 Environmental Atlas
		86 Environmental Quality Index
		87 The Northern Landscape
		87 Sensitive Terrain
		88 Importance of Valleys
		88 Wetlands
		88 Aesthetic Values
		88 Cumulative Effects of Development
		89 Water
		90 Water Quality Standards
		91 Air
		91 Air Quality Objectives
		92 Noise
		92 Environmental Aspects of Noise
		93 The Environment and Project Noise
		93 Archaeological Sites
		CHAPTER 8
		Wildlife 95
		95 Mammals
		95 Caribou and Reindeer
		98 White Whales
		99 Moose

99 Foxes and Wolves	134 The Location of the Southern Limit of Refrigeration	158 River Training Works
99 Bears	135 Confirmation of Design Assumptions During Construction	159 Groundwater Flow
100 Birds	136 Monitoring of Frost Heave After Construction	159 Overhead Crossings
101 Areas Important to Birds	136 Slope Stability	159 Buoyancy Control
103 Rare or Endangered Species	137 Flow Slide Activity	160 Scour Computations
103 Raptors	137 The Behaviour of Deep-seated Landslides	160 Dual Crossings
104 Waterfowl	138 Effect of Interference of Subsurface Drainage	160 Construction
105 Wildlife Management and Research	138 Creep of Ice-rich Slopes	160 Timing of Construction
106 Northern Wildlife Management	138 Pipe Uplift Problems Unrelated to Freezing	161 Installation of the Pipe
106 Wildlife Management and Pipeline Regulation	139 Design of Control Measures	161 Work Pods and Berms in Channel Zones
107 Hunting and Access	139 Design Modification During Construction	162 Sedimentation
108 Wildlife Research and Monitoring	140 Monitoring and Remedial Measures	162 Restoration of River Beds and Banks
	140 Buoyancy of Pipe Following Abandonment	163 Monitoring
CHAPTER 9		CHAPTER 15
Fish 111		Water Withdrawals 165
111 Characteristics of Northern Fish		166 Overall Plan
112 Fish Protection		166 Site-specific Applications
112 Principles of Protection		166 Design Guidelines
113 Suspended Sediment		167 Operating Considerations
115 Barriers to Fish		
115 Underwater Blasting		CHAPTER 16
116 Monitoring of the Aquatic Environment		Waste Management 169
116 Monitoring Guidelines		169 Waste Management Plans
117 Fisheries Management		170 Overall Plan
117 Man's Use of Fish		170 Site-specific Applications
117 Fisheries and the Pipeline Project		170 Wastewater
		170 The Application of Standards
CHAPTER 10	CHAPTER 13	172 Effluent and Disposal Standards
Northern Conservation Lands 119	Terrain Considerations 141	173 Sampling and Records
119 A Northern Conservation Strategy	141 Ground Surface Preparation	174 Design Guidelines
121 Proposals Made by the United States in Alaska	142 Clearing	176 Solid Waste
121 Wilderness Protection	142 The Forest: Resource, Habitat and Aesthetic Values	176 Waste Guidelines
122 National Parks	142 Clearing Procedures	177 Hazardous and Toxic Wastes
122 Other Conservation Areas	143 Snow Roads	177 Procedures
122 National Heritage Areas	143 Scheduling and Sufficiency of Snow	
123 Conservation Areas of International Importance	144 Overall Plan	CHAPTER 17
123 Wildlife Areas	144 Site-specific Information	Management of Fuels and Hazardous Substances 179
123 Recreation Areas	145 Snow Road Guidelines	180 The Limitations of Spill Control
123 Archaeological, Cultural and Historic Sites	145 Drainage and Erosion	180 Risks to the Environment
124 Native Claims Aspects	146 Surface Drainage and Erosion	181 Implications
124 Conclusion	148 Subsurface Drainage	181 A Management Plan
	148 Revegetation	181 Commitment to a Plan
PART THREE:	149 Forest Fire Prevention and Suppression	181 Overall Plan
The Project	150 Blasting	182 Site-specific Information
	151 Overall Plan	183 Spill Prevention
CHAPTER 11	151 Site-specific Information	183 Design Guidelines for Spill Prevention
Location, Construction Plan and Scheduling 127	151 Blasting and Traditional Activities	187 Contingency Planning for Spill Control
127 Location	151 Blasting and Wildlife and Fish	
128 Construction Plan and Scheduling	152 Borrow Operations	CHAPTER 18
	152 Overall Plan	Pipe Testing 189
	152 Site-specific Applications	
CHAPTER 12	153 Guidelines for Borrow Operations	CHAPTER 19
Geotechnical Considerations 131		Facilities Complexes and Equipment Operations 191
131 General Approach	CHAPTER 14	191 Facilities Complexes: Location and Design
132 Frost Heave and Thaw Settlement	River and Stream Crossings 155	192 Overall Plan
132 Prediction of Frost Heave and Effectiveness of Preventive and Remedial Measures	155 Definitions	192 Site-specific Applications
	156 Watercourses	192 Location and Design Considerations
	156 Fluvial Landforms	
	157 Design Flows and Levels	
	158 Design Criteria	
	158 Location of Crossings	
	158 Location of Sag Bends	

194 Compressor and Related Noise
 195 Emissions from Facilities
 196 Equipment Operations
 196 Road Vehicles
 197 Off-road Vehicles
 197 Barges

CHAPTER 20

Aircraft Control 199

200 Restraints on Aircraft Flights
 200 Measures to Limit Disturbance from
 Project-related Flights
 200 Measures to Limit Disturbance to
 Specific Species from Project-related
 Flights
 201 Control, Implementation and
 Enforcement
 201 Flight Control Group
 202 Enforcement
 202 Company Plans for the Use of Aircraft
 202 Pilot Education
 203 Wildlife-Aircraft Impact Research

CHAPTER 21

Project Regulation and Review 205

205 The Nature of Regulation
 205 Principles of Regulation
 206 The Regulatory Agency
 208 The Company
 209 Review Processes
 209 Overall Project Review
 211 Design Review
 211 Impact Assessment Group

PART FOUR: Epilogue

CHAPTER 22

Native Claims and Political Development in the Northwest Territories 215

APPENDICES

APPENDIX 1

The Inquiry Process 223

223 The Inquiry Process
 224 The Inquiry's Mandate
 224 The Pipeline Application Assessment
 Group
 224 Environment Protection Board
 225 Preliminary Hearings
 225 Production of Studies and Reports
 225 Funding Intervenors
 226 Hearings
 228 The Media
 228 Commission Counsel and Inquiry Staff
 229 Assessment of Impact
 229 Inquiries and Government

APPENDIX 2

Inquiry Documents 229

233 Order-in-Council
 237 Letter Referring the Application of
 Canadian Arctic Gas Pipelines Limited

239 Letter Referring the Application of
 Foothills Pipe Lines Ltd.
 241 Preliminary Rulings (I)
 241 The Timetable for the Inquiry
 242 Hearings
 243 Practice and Procedure
 244 Scope of the Inquiry
 247 Preliminary Rulings (II)
 247 Practice and Procedure
 247 Application of the Rules
 247 Overview Hearings
 248 Formal Hearings
 248 Community Hearings
 249 Evidence Relating to Native Claims
 250 Discovery
 250 Applications to the Inquiry
 251 Changes in These Rules
 251 Inspection by the Public

APPENDIX 3

Acknowledgements 253

253 Photographs and Diagrams

APPENDIX 4

Terminology and Bibliography 255

255 Terminology
 256 Bibliography
 266 Legislation: Canada
 268 Legislation: United States
